<sup>1</sup> Non-GAAP financial measure. See "Non-GAAP Financial Measures" for additional information on non-GAAP financial measures and a reconciliation to the most comparable GAAP measures.

## **Outlook for the Third Quarter 2024**

The Company also provides guidance for the third quarter ending September 30, 2024 as follows:

- Revenues to be within the range of \$260 million to \$290 million
- Non-GAAP gross margin\* expected to be within the range of negative 3% to positive 1%, including approximately 560 basis points of net IRA manufacturing tax credit
- Non-GAAP operating expenses\* to be within the range of \$111 million to \$116 million
- Revenues from the solar segment to be within the range of \$245 million to \$280 million
- Gross margin from the solar segment expected to be within the range of 0% to 4% including approximately 590 basis points of net IRA manufacturing tax credit

\*Non-GAAP gross margin and Non-GAAP operating expenses are non-GAAP financial measures, and these forward-looking measures have not been reconciled to the most comparable GAAP outlook because it is not possible to do so without unreasonable efforts due to the uncertainty and potential variability of reconciling items, which are dependent on future events and often outside of management's control and which could be significant. Because such items cannot be reasonably predicted with the level of precision required, we are unable to provide outlook for the comparable GAAP measures. Forward-looking estimates of Non-GAAP gross margin and Non-GAAP operating expenses are made in a manner consistent with the relevant definitions and assumptions noted herein and in our filings with the SEC.

#### About SolarEdge

SolarEdge is a global leader in smart energy technology. By leveraging world-class engineering capabilities and with a relentless focus on innovation, SolarEdge creates smart energy solutions that power our lives and drive future progress. SolarEdge developed an intelligent inverter solution that changed the way power is harvested and managed in photovoltaic (PV) systems. The SolarEdge DC optimized inverter seeks to maximize power generation while lowering the cost of energy produced by the PV system. Continuing to advance smart energy, SolarEdge addresses a broad range of energy market segments through its PV, storage, EV charging, batteries, and grid services solutions. SolarEdge is online at <u>www.solaredge.com</u>

#### **Use of Non-GAAP Financial Measures**

To provide investors and others with additional information regarding SolarEdge's results, SolarEdge has disclosed in this earnings release the following non-GAAP financial measures: non-GAAP operating income (loss), non-GAAP operating expenses, non-GAAP gross margin, non-GAAP net income (loss), and non-GAAP net earnings (loss) per share. SolarEdge has provided a reconciliation of each non-GAAP financial measure used in this earnings release to the most directly comparable GAAP financial measure below. These non-GAAP financial measures differ from GAAP in that they exclude stock-based compensation, amortization and impairment of acquired intangible assets, restructuring and impairment charges, acquisition, disposition and other items, certain litigation and other contingencies, amortization of debt issuance cost, non-cash interest expense and non-cash revenue recognized from significant financing component, certain foreign currency exchange rates, gains and losses on investments, income and losses from equity method investments and discrete items that impacted our GAAP tax rate. Our non-GAAP financial measures also reflect the application of our non-GAAP tax rate.

SolarEdge's management uses these non-GAAP financial measures to understand and compare operating results across accounting periods, for internal budgeting and forecasting purposes, for short- and long-term operating plans, to calculate bonus payments and to evaluate SolarEdge's financial performance, the performance of its individual functional groups and the ability of operations to generate cash. Management believes these non-GAAP financial measures reflect SolarEdge's ongoing business in a manner that allows for meaningful period-to-period comparisons and analysis of trends in SolarEdge's business, as they exclude charges and gains that are not reflective of ongoing operating results. Management also believes that these non-GAAP financial measures provide useful information to investors and others in understanding and evaluating SolarEdge's operating results and future prospects from the same perspective as management and in comparing financial results across accounting periods.

The use of non-GAAP financial measures has certain limitations because they do not reflect all items of income and expense that affect SolarEdge's operations. These non-GAAP financial measures should be considered in addition to, not as a substitute for or in isolation from, measures prepared in accordance with GAAP and should not be considered measures of SolarEdge's liquidity. Further, these non-GAAP measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore comparability may be limited. Management encourages

investors and others to review SolarEdge's financial information in its entirety and not rely on a single financial measure.

#### Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

Statements contained in this press release contains may contain forward-looking statements that are based on our management's expectations, estimates, projections, beliefs and assumptions in accordance with information currently available to our management. This press release contains certain forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include information, among other things, concerning our possible or assumed future results of operations, future demands for solar energy solutions, business strategies, technology developments, new products and services, financing and investment plans; dividend policy; competitive position, industry and regulatory environment, general economic conditions; potential growth opportunities; cancellations and pushouts of existing backlog; installation rates; and the effects of competition. Forward-looking statements include statements that are not historical facts and can be identified by terms such as "anticipate," "believe," "could," "seek," "estimate," "expect," "intend," "may," "plan," "potential," "predict," "project," "should," "wull," "would" or similar expressions and the negatives of those terms.

Forward-looking statements inherently involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forwardlooking statements. Given these uncertainties, you should not place undue reliance on forward-looking statements. Also, forward-looking statements represent our management's beliefs and assumptions only as of the date of this release. Important factors that could cause actual results to differ materially from our expectations include, but are not limited to: future demand for renewable energy including solar energy solutions; our ability to forecast demand for our products accurately and to match production to such demand as well as our customers' ability to forecast demand based on inventory levels; macroeconomic conditions in our domestic and international markets, as well as inflation concerns, rising interest rates, and recessionary concerns; changes, elimination or expiration of government subsidies and economic incentives for on-grid solar energy applications; changes in the U.S. trade environment; federal, state, and local regulations governing the electric utility industry with respect to solar energy; changes in tax laws, tax treaties, and regulations or the interpretation of them, including the Inflation Reduction Act; the retail price of electricity derived from the utility grid or alternative energy sources; interest rates and supply of capital in the global financial markets in general and in the solar market specifically; competition, including introductions of power optimizer, inverter and solar photovoltaic system monitoring products by our competitors; developments in alternative technologies or improvements in distributed solar energy generation; historic cyclicality of the solar industry and periodic downturns; product quality or performance problems in our products; shortages, delays, price changes, or cessation of operations or production affecting our suppliers of key components; our dependence upon a small number of outside contract manufacturers and limited or single source suppliers; capacity constraints, delivery schedules, manufacturing yields, and costs of our contract manufacturers and availability of components; delays, disruptions, and quality control problems in manufacturing; existing and future responses to and effects of pandemics, epidemics, or other health crises; disruption in our global supply chain and rising prices of oil and raw materials as a result of the conflict between Russia and Ukraine; our customers' financial stability and our ability to retain customers; our ability to retain key personnel and attract additional gualified personnel: performance of distributors and large installers in selling our products; consolidation in the solar industry among our customers and distributors; our ability to manage effectively the growth of our organization and expansion into new markets and integration of acquired businesses; our ability to recognize expected benefits from restructuring plans; any unauthorized access to, disclosure, or theft of personal information or unauthorized access to our network or other similar cyber incidents; disruption to our business operations due to the evolving state of war in Israel and political conditions related to the Israeli government's plans to significantly reduce the Israeli Supreme Court's judicial oversight; our dependence on ocean transportation to timely deliver our products in a cost-effective manner; fluctuations in global currency exchange rates; the impact of evolving legal and regulatory requirements, including emerging environmental, social and governance requirements; changes to net metering policies or the reduction, elimination or expiration of government subsidies and economic incentives for on-grid solar energy applications; federal, state, and local regulations governing the electric utility industry with respect to solar energy; changes in tax laws, tax treaties, and regulations or the interpretation of them, including the Inflation Reduction Act; changes in the U.S. trade environment, including the imposition of import tariffs; business practices and regulatory compliance of our raw material suppliers; our ability to maintain our brand and to protect and defend our intellectual property; the impairment of our goodwill or other intangible assets; volatility of our stock price; our customers' financial stability, creditworthiness, and debt leverage ratio; our ability to retain key personnel and attract additional qualified personnel; our ability to effectively design, launch, market, and sell new generations of our products and services; our ability to retain, and events affecting, our major customers; our ability to service our debt; and the other factors set forth under "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2023, filed on February 26, 2024, and in other documents we file from time to time with the SEC that disclose risks and uncertainties that may affect our business. The preceding list is not intended to be an exhaustive list of all of our forward-looking statements. You should not rely upon forward-looking statements as predictions of future events. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee that future results, levels of activity, performance and events and circumstances reflected in the forward-looking statements will be achieved or will occur. Statements in this press release speak only as of the date they were made. The Company undertakes no duty or obligation to update any forward-looking statements contained in this release, whether as a result of new information, future events or changes in its expectations or otherwise, except as may be required by applicable law, regulation or other competent legal authority.
